Take Plenty of Time to Eat.

There is a saying that "Rapid eating is slow suicide" If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result even-tually in serious illuess unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel duil and stupid after eating, take one of Chamberlain's Stomach and Liver Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. For sale by all deal-
